## OUR HOUSE PROSECCO

---

The history of our house prosecco by Carlo Bisol Solighetto began at the beginning of the 20th century in Follina, a small village in the province of Treviso. The Bisol family developed tools for viticulture, researched new technologies and experimented with distillation to produce excellent quality wines.

Today, Prosecco is a symbol of our roots, the memory of our ancestors who created the vineyards of the hills of Treviso with their sweat and many sacrifices.

Let us take you to Treviso in terms of taste and immerse yourself in our history.
