## Easter Lamb Card

*Irish lamb is a true gem of natural meat production. The lambs grow up in the picturesque and unspoilt landscape of Ireland, which provides them with optimal living conditions. The temperate climate and endless green pastures allow them to move freely and feed on succulent grass. This natural diet gives the meat its characteristic, delicate taste and tender texture. As a result of these excellent holding conditions, Irish lamb enjoys a first-class international reputation for its exceptional quality.*

Thanks to our Easter lamb menu, you have the opportunity to enjoy the first-class lamb meat.
